

# TOUCHWORKS® EHR 2024.1

## Commitment to enhancing the client experience.

We're excited to share these requested features and enhancements **available April 5, 2024**.

 <p><b>Enhance accuracy through time zone remediation</b> for C-CDAs, aiding clients with operations in multiple time zones during C-CDA creation and viewing</p>	 <p><b>Boost productivity with the new configuration options</b> to avoid Problem Duplicate and Potential Duplicate warnings</p>
 <p><b>Save time by automatically removing unassessed problems</b> from Charge when the linked charge remains unsubmitted</p>	 <p><b>Improve workflow efficiency</b> by navigating directly to procedure charges and add additional units when adding new charges</p>
 <p><b>Enhance accuracy by prioritizing SNOMED usage</b> in DUR-Drug Healthstate (precautions) checking, then using ICD if SNOMED is unavailable</p>	 <p><b>Increase adaptability</b> by enabling organizations to exclude Family History and/or Social History items in Drug-Healthstate checking</p>
 <p><b>Save time by searching all NoteForms automatically</b> when Favorites is set as the default</p>	 <p><b>Enhance flexibility</b> with option to define custom age ranges for NoteForms</p>
 <p><b>Increase productivity</b> by copying data from the patient banner to the clipboard</p>	 <p><b>Access additional data in FMH Update Demo tasks</b>, including sexual orientation and gender identity</p>
 <p><b>Simplify adherence to medical record retention policies</b> by using record destruction scripts to completely remove select patient medical records, offered as a fee-based service with limited availability</p>	 <p><b>Facilitate communication and recordkeeping</b> with 'Copy All' task comments from the Inbox inline viewer</p>
 <p><b>Shortcut the process of generating new tasks</b> from existing ones using the Copy to New Task button</p>	 <p><b>Optimize productivity</b> when attending to upcoming order-related tasks with the 'To Be Done' date sort option on Inbox</p>

# TouchWorks EHR 2024.2

What's Next? A sneak peek of what is **coming soon**.

Altera is focused on **planning the next release of TouchWorks EHR**, providing exciting enhancements and keeping satisfaction at the heart of meeting regulatory requirements. No hot fixes are planned. Be sure to attend [the quarterly client webinars](#) for the upcoming blueprint.

## Planned for 2024.2

**Support for Microsoft® Windows® 11**

**Regulatory:** HIT-1 Decision Support Interventions and Predictive Models

**Problem Terminology Uplift**

**Regulatory:** HIT-1 Safety Enhanced Design Standards

**Schedule at a glance**

**Regulatory:** HIT-1 Service Base URLs (FHIR Endpoints)

**USCDI updates for demographics**

**Support for extended BMI on growth charts**

## Help shape the TouchWorks EHR solution

Join our **TouchWorks EHR Feature Feedback and Mastermind Webinars!**

We want to hear your thoughts and feedback on the proposed new feature requirements and design for TouchWorks EHR. The Mastermind sessions give you (our clients) the opportunity to ask questions about TouchWorks EHR and its future.

The sessions are open to all clients and user roles, and the meetings will be interactive to give us (and you) an opportunity to talk with and hear from other TouchWorks EHR clients.

View the webinar schedule [here](#) (a Client Portal login is required).
